BETTER MARKETING.

Of Vermont Considered by Greater Vermont Association Committee.

The better marketing committee of the Greater Vermont association held at Montpelier its first regular meeting with morning and afternoon sessions, at which the plans for the work of the committee were outlined. There were present, James B. Estee, Montpelier, chairman of the committee; E. S. Brigham, St. Albans; Dr. Edward R. Campbell, Montpelier; L. M. Hayes, Burlington; W. N. Cady, Middlebury; James P. Taylor, Burlington, secretary; Theodore N. Vail, due to absence in the south was unable to be present.

During the sessions a great deal of time was devoted to general discussion of the problem and the elements which entered into it both in Vermont and in the out-of-the-state markets to which Vermont products were sent. The committee decided to limit the scope of inquiry about better markets to farm products; products of the soil, dairy products, breeding products, horticultural products, etc. They also voted that the work should be directed to a thorough inquiry as to methods of marketing at the present time, and after this information has been assembled and analyzed, the formulating of a report for the Greater Vermont association which will contain suggestions as to how marketing conditions can be improved.

A letter was read from George W. Perkins, of New York City, in which he invites the committee to meet him and representatives from other states at a conference on marketing problems in New York City, Thursday, Jan. 11. The committee voted that this invitation be accepted and that the committee be represented by the president, the secretary and any other member of the committee who finds it possible to attend.

The committee indicated to the secretary a number of sources from which information might be obtained as to the present methods of marketing and voted that another meeting be held when sufficient matter is assembled for the consideration of the committee.

Appointments to Military and Naval Academies

Representative Porter H. Dale of the second congressional district of Vermont has been notified that his district will be entitled to send one cadet to the United States military academy at West Point and one midshipman to the United States naval academy at Annapolis, each to enter in 1917, and has been asked to make nominations for these expected vacancies.

He has arranged with President Ira L. Reeves of Norwich university, Northfield, Vt., to conduct for him an unofficial preliminary examination of candidates for the district for appointment to these vacancies. This examination will be held at the university Jan. 17, 1917. The successful candidates will be certified to Representative Dale for nomination to take the official government examination for admission to the academies.

Youths in the second district (between the ages of 17 and 22 years for West Point and 16 and 20 years for Annapolis) who desire to compete for these nominations will obtain full particulars by addressing President Reeves.

"TIZ" FOR TIRED AND SORE FEET

Use "Tiz" for Puffed-Up, Burning, Aching, Calloused Feet and Corns

Why go limping around with aching, puffed-up feet—feet so tired, chafed, sore and swollen you can hardly get your shoes on or off? Why don't you get a 25-cent box of "Tiz" from the drug store now and gladden your tortured feet?

"Tiz" makes your feet glow with comfort; takes down swellings and draws the soreness and misery right out of feet that chafe, smart and burn. "Tiz" instantly stops pain in corns, callouses, and bunions. "Tiz" is glorious for tired, aching, sore feet. No more shoe tightness—no more foot torture.—Adv.

Forest Notes.

Tests at the forest products laboratory at Madison, Wisconsin, indicate that by the use of four additional nails in each end an increase of 300 per cent in the strength of canned-foot boxes is secured.

Approximately 10,390 acres of denuded lands within the National forests were reforested in the fiscal year 1916. The total number of trees planted was 6,146,637, while 8,280 pounds of tree seed were sown.

There were 133,442 more cattle and horses, and 605,338 more sheep and goats using the national forests in 1916 than in 1915. This increase was in spite of large eliminations of grazing lands from the forests. It is accounted for by improved methods of handling the stock and by more intimate knowledge of the forage on the ranges and their carrying capacity.

The number of fires suppressed on national forest lands during the calendar year 1915 was 6,324, as against 7,018 in 1914, and an average annual number

Catarrhal Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal deafness is caused by an inflammation of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a running ear or imperfect hearing, and when it is entirely closed deafness is the result. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surface of the Eustachian Tube. It is the blood on the mucous surface of the tube.

We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Medicine. Circulars free. Drugists, 76c.

LOWELL ANIMAL FERTILIZERS

You cannot afford to buy potash at present enormous prices, but it is essential to fertilize.

Experiments have proven that larger amounts of organic ammonia and phosphoric acid will produce profitable crops without potash. Our fertilizers are from nature's own prescription—animal matter, consisting of BONE, BLOOD, MEAT and high grade chemicals. They will enrich your land and give you abundant crops.

Talk it over with our local dealer and write us for booklet, "Producing Profitable Crops."
